For teen girls!

Did you know that you were created as a woman for a unique and specific purpose? That God has a plan in mind for YOU, in this world, at this time? That He chose YOU? Living in a culture where every area seems gray and most everything is acceptable, it can be overwhelming and confusing at times as to who we are as women in regard to the world today. Join us to learn just that - why your feminine identity is so awesome and how it affects the world around you. Discover God's healing power and endless mercy and how to live as His chosen daughters. Our Blessed Mother, our feminine role model, will lead the way through this day that includes presentations, fun, interactive activities, discussion, prayer, mass, and confession. Come be affirmed in your femininity and God's endless mercy!
